# NEXT LEVEL

PERFORMANCE AND STYLE

## HIGHLY EVOLVED BOWRIDERS

Cleverly designed to offer the interior space of boats up to half a meter longer, the VR Series combines performance, features, and comfort. Our BeamForward™ design carries the full beam further forward, increasing comfort and capacity versus traditional pointed bows. We increase cockpit seating with AftAdvantage™ design that shifts it to the aft-most point of the running surface, with the swim platform extending beyond that. This creates more usable space and keeps families comfortable all day.
